## CHEAP TO RUN

With energy costs rising and an increasing focus on the environment, Daydream Spas have been designed to be as economical and environmentally friendly as possible.

- When in filter mode, our multi speed pumps run at 20% of their normal speed to provide economical filtration (up to 49% cheaper than other filtration pumps).
- Our 6 layer “Energy Smart” insulation system is designed to keep cold air out and lock heat in, utilising the heat from the pumps to further reduce running costs.
- The “Tough Barrier” fibreglass base is coated with high density closed cell foam to stop heat loss through the ground (most spas just have just a thin layer of plastic).
- A thick layer of the same foam insulation is applied to the shell to keep the heat in the water.
- High density “Thermo Wood” cabinet cladding and multi-layer “E-wrap” insulation stops heat loss from the sides of the cabinet.
- A heavy duty lockable cover stops heat loss from above.
- Our “Custom Fit” cabinets make sure the gap between the shell and cabinet is minimal, also stopping heat from escaping and keeping running costs down.

## BUILT TO LAST

Daydream Spas have been built using premium components and superior technology.

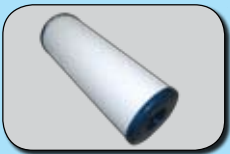

- Our oven cured “Tough Bond” 6 layer laminated spa shells are stronger and thicker (not many other shells are 8-10mm thick).
- The fibreglass “Tough Barrier” base stops vermin and weather damaging your spa.
- The custom built triple reinforced spa frames support every seat and are made from treated timber, then painted to ensure they won’t rot.
- Premium components sourced from all over the world ensure long life and superior performance.
- All Daydream Spas have the required safety certificates and meet all Australian Standards.
- You can relax with our Lifetime Support Plan that makes sure you always have the support and service you deserve.

## EASY TO MAINTAIN

Your spare time should be spent enjoying your spa, not maintaining it, that’s why our spas are designed to make things easy.

- The “set and forget” multi-function control system automatically makes sure your water is always clean and ready to use. The “Lockout” mode stops your kids and neighbours using the spa when you don’t want them to and “Sleep” mode makes sure your spa goes to sleep when you are.
- Our self cleaning, bearing-less PVC backed jets don’t have clips that break, can’t get damaged by chemicals and won’t get clogged and stop spinning.
- To keep chemicals and water maintenance to a minimum, our “Puresafe” ozone system is fitted to every spa. As excess ozone gases can be destructive, we fit a patented “mixing chamber” to maximize effectiveness and stop damage to your cover and headrests.
  - Optional “Silver Ion Micro Filters” offer maximum water clarity, reduce chemical usage and don’t need regular cleaning.
  - Our maintenance free “Thermo-wood” cabinets don’t need regular oiling.
  - Our exclusive “Oasis Spa Sanitation System” ensures crystal clear, chlorine and odour free water with minimal effort.

## BETTER MASSAGE

Daydream Spas are designed to offer the ultimate hydro-massage and relaxation experience.

- Our broad stream “Aqua-ssage” jets feel better and give you a better massage.
- Adjustable and interchangeable pulse, swirl and deep tissue massage jets, combined with individual massage controls allow you to create a different massage in any seat to suit your needs.
- High performance pumps combined with our “Free Flow” plumbing system give you more power when you want it.
- Select your essential oil aromatherapy scent, choose your mood lighting effect and turn on the optional waterfall and sound system to create the perfect mood.
- Relax in peace as our 6 stage insulation system, Quiet Flo Pumps and anti-vibration pump mounts make our spas exceptionally quiet.

## RIO

The Rio is a compact luxury spa that fits into corners when space is limited. Perfect for patios and balconies, it is the perfect hydrotherapy spa for couples looking for the ultimate spa retreat.

- Full body massage lounge
- Hydrotherapy seat
- Awesome back, shoulder, leg & foot massage
- Compact design with seating for 2

Dimensions: 1.85m x 1.85m x 810mm

## PARADISE

The Paradise is a compact luxury spa designed for those wanting maximum hydrotherapy but with limited space. Perfect for patios and balconies, you'll enjoy hours of relaxation and enjoyment in your own piece of paradise.

- Full body massage lounge
- 2 hydrotherapy seats
- Awesome back, shoulder, leg & foot massage
- Compact design with seating for 3

Dimensions: 1.45m x 2.01m x 740mm

## HAWAIIAN

The Hawaiian is a compact single recliner spa offering multiple seating and massage experiences. Whether you want to lie down, stretch out or cool off, the Hawaiian spa has it all.

- Full body massage lounge
- 2 hydrotherapy seats
- Awesome back, shoulder and leg massage
- Compact design with seating for 6

Dimensions: 2.0m x 2.0m x 820mm

## MIAMI

The Miami is a compact yet roomy dual recliner spa that is designed for both hydro-massage and relaxing with family and friends. There will never be any arguments over who gets the recliner in this popular spa.

- 2 full body massage lounges
- Hydrotherapy seat
- Awesome back, leg and foot massage
- Compact design with room for 5

Dimensions: 2.05m x 2.05m x 810mm

## BALI

The Bali is a mid sized spa with appealing open layout. It is the perfect spa for serious hydrotherapy as well as relaxing with family and friends and offers the ultimate in performance, comfort, features and quality.

- Dual neck therapy seats
- 2 hydrotherapy seats
- Awesome back, neck, shoulder and foot massage
- Open style design with room for up to 8

Dimensions: 2.1m x 2.1m x 910mm

## CARIBBEAN

The Caribbean has enough room for family and friends without being too big. Offering a fantastic massage, a great place for relaxation and the very best in build quality, equipment and features, the Caribbean is the perfect spa.

- Full body massage lounge
- 2 hydrotherapy seats
- Awesome back, neck, leg & foot massage
- Open style design with room for 7

Dimensions: 2.25m x 2.1m x 910mm
